Rainbow Mountain ATV Tour

vinicunca's summit on four wheels

DURATION	DIFFICULTY	MAX. ALTITUDE	BEST SEASON
Full day	Moderate	5,036 m	Apr — Oct

If you want to see Vinicunca but the nearly two-hour climb above 4,700 m doesn't appeal, this ATV version is for you. From the mountain's entrance you ride about 25 minutes along a dirt track past wetlands, alpaca herds and striped hills, until you are very close to the viewpoint. The final stretch is a short walk, so you reach the summit (5,036 m / 16,522 ft) with energy to enjoy it: the red, yellow and turquoise bands of the mountain and, if the sky cooperates, Ausangate glacier in the distance. After 30 to 40 minutes on top we ride back down and have a buffet lunch in Cusipata. We include pickup, transport, a bilingual guide, breakfast, lunch, a single or double ATV, helmet, oxygen and a first-aid kit. The physical effort is low, but the altitude is real: arrive in Cusco with a couple of days to acclimatize.
